## What does it mean to live in the heart of peace?

Peace is the state of being that arises naturally and spontaneously when we no longer resist our experience. When we consciously live in the moment we have no sense of fear, anxiety or expectation. By learning how to be in the present with whatever is happening we deepen our connection to Self, life and the world we live in. Join **Santi Devi** for an evening of spiritual nourishment as she illuminates the essence of living in the heart of peace.

**Santi Devi** is a mystic who through her presence and teaching awakens Divine consciousness. She has been graced with the illumination of her essential Being as well as experiences that have revealed the true nature of reality. She is devoted to serving all beings on their journey to Self-realization. Santi teaches meditation, pranayama and bhakti yoga as well as conducting Satsang and Darshan. She is available for private consultation.
